Welcome Sonia and Becky!

## **Purple Tees... They're here!**

Barb Kennedy started this project March 15 when she contacted the GSGA for guidance. Peggy Gardner soon joined her in the effort and, together, they approached Byron and he gave approval to carry on.

Today, June 26, the Purple Tees are OFFICIAL. They have been added to the GHIN system and are available for posting scores.

In addition to the Purple Tees a Red/Purple mix and a Green/Red mix have been added as additional options for women.

We just want to remind all golfers, that no one is required to play from the Purple Tees. Use them as you wish, but we have heard lots of positives comments, so give them a try and have fun.

All of the women's tee options have been included on a temporary scorecard that can be obtained at the Pro Shop.

We appreciate all the feedback that has been provided and will continue to work with Byron on additional improvements.

Judy Matton has been thinking of how to integrate the Purple tees into our SWGA Playdays, so stay tuned for more information.

Many thanks to Byron who supported this initiative and provided resources to make it happen. We look forward to his continued support.

Also, a huge thank you to Barb Kennedy for taking the initiative to make this a reality.

We hope you enjoy the new tees.
